

Closing in on the Standard Model

August 19–25, 2012

at the Lyceum Alpinum in Zuoz (Engadin), Switzerland

Topics:

- Mechanisms of Electroweak Symmetry Breaking
- Models of Flavour Physics
- Bound States
- Physics Lessons from the Tevatron and LHC
- Physics Lessons from B and K Physics
- Physics Lessons from High Precision Experiments
- Quantum Hall Effect

Lecturers:

J. Fröhlich (ETHZ)
S. Hansmann-Menzemer (Heidelberg)
D. Hertzog (Seattle)
Y. Nir (Rehovot)
V. Rychkov (Paris)
A. Signer (PSI)
R. Wallny (ETHZ)

Organizer:

M. Spira

School Secretary:

A. Van Loon-Govaerts

Registration:

Requests for registration should be sent to Mrs. A. Van Loon-Govaerts, Paul Scherrer Institut, 5232 Villigen PSI, Switzerland, Telephone +41 (0)56 310 32 54, e-mail: zuoz2012@psi.ch before June 19, 2012.
